Notes:

- SQL Server 2005 does not support the Banyan VINES Sequenced Packet protocol (SPP), Multiprotocol, AppleTalk, or NWLink IPX/SPX network protocols. Clients previously connecting with these protocols must select a different protocol to connect to SQL Server 2005.
- SQL Server 2005 software works on hardware certified for use with the Microsoft Windows operating system.
- Actual requirements will vary based on your system configuration and the applications and features you choose to install. Additional available hard-disk space may be required.
- SQL Server 2005 Workgroup Edition will also run on Microsoft Windows Server 2003 64-bit x64 Standard, Enterprise, or Datacenter edition with Service Pack 1 or later running in Windows on Windows.
