Added the ability to tag subject contacts as a source of data for RISS exporting.

When entering subject contacts, you are able to select if you want the record to be exported when a RISS bulk export is performed. You must use this option if you want the export to include a specific address and weapon information..

The screenshot shows a software window titled "SUBJECT - BALDUS, RONNIE D". The interface includes a header with "Agency ID: 2215" and "Subject/Place Name: BALDUS, RONNIE D". Below this is a tabbed menu with options like "Subject", "Physical", "Misc", "ID Info", "Comments", "Gang", "Images", "Attachments", "SMT's", "Intel Log", "Registrant", "Address", "Associate", "Key Words", "Phone #'s", "Vehicles", "Weapons", "Case Links", "Inmate", "Review", "Contacts", and "Crime Types". The "Contacts" tab is active.

Key fields in the "Contacts" tab include:

- Contact Date: 01/01/1999
- Contact Time: 00:00
- RISS Export Eligible (highlighted with a red circle and labeled "SOURCE: Field Event Entry")
- Contact Reason: Drug Raid
- Contact Agent/Officer: ANDERSON, JOE G.
- Other Contact Name: Field Investigation
- Contact Agency: [Dropdown]
- Source of Information: [Dropdown]
- Evaluation of Info: [Dropdown]
- Evaluation of Source: [Dropdown]

The "Address / Location" section contains fields for Building # (1234), Apartment # (2332), Street (TAMMANY), City, State (AB), Zip Code (23243), Cross Road Name, and Alley.

The "Weapon Information" section includes fields for Weapon Type (Handgun), Model (model), Description (cccccccccccccc), Serial Number (serial #), Caliber / Gauge (20 guage), Country of Origin (Canada), Manufacturer (Smith & Wesson), Magazine/Cylinder (10000), and Weapon/Barrel Length (200.00).

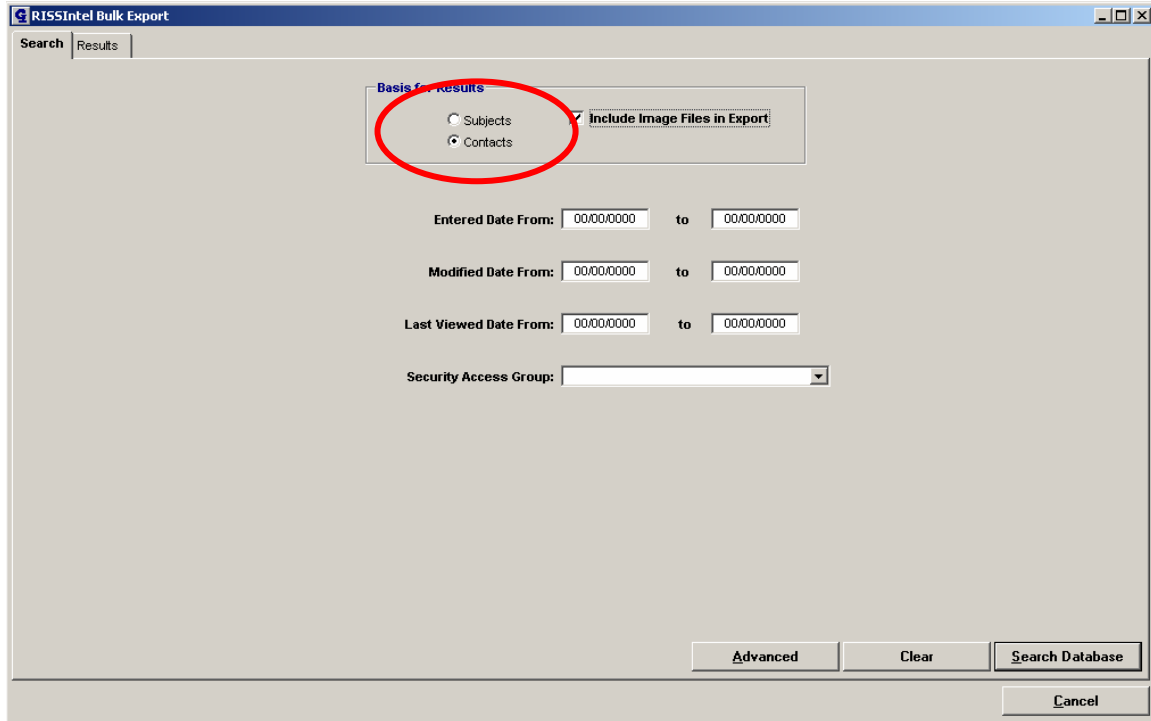

At the bottom, there is a "Comments:" text area, a status bar with "Entered: 12/18/2002 21:49:24 By User: DBSA" and "Last Modified: 08/12/2007 12:05:46 By User: DBSA", and a "Rows 1 to 1 of 3" indicator. Action buttons include "Lookup Weapon Details", "Remove Weapon Details", "Insert Detail", and "Delete Detail".

Default Booking Officer to Logged in User: A Yes/No flag indicating if the booking officer will default to the employee associated with the current user. (The association is defined using the **User to Employee Association** window.)

Show Subject Related Tabpages for Defendants: A Yes/No flag indicating if the Subject Name and Demographics tabs are visible on the Suspect/Defendant window.

RISSINTEL Bulk Export Update

Added the ability to base the export on either subject details or subject contact details.

The screenshot shows the 'RISSINTEL Bulk Export' application window. The window has a title bar with the text 'RISSINTEL Bulk Export' and standard window controls. Below the title bar, there are two tabs: 'Search' and 'Results'. The main content area is titled 'Basis for RESULTS' and contains several options and input fields. A red circle highlights the 'Basis for RESULTS' section, which includes two radio buttons: 'Subjects' (unselected) and 'Contacts' (selected). To the right of these radio buttons is a checkbox labeled 'Include Image Files in Export' which is checked. Below the radio buttons are three date range input fields: 'Entered Date From: 00/00/0000 to 00/00/0000', 'Modified Date From: 00/00/0000 to 00/00/0000', and 'Last Viewed Date From: 00/00/0000 to 00/00/0000'. Below these is a 'Security Access Group:' dropdown menu. At the bottom of the window, there are four buttons: 'Advanced', 'Clear', 'Search Database', and 'Cancel'.

The image crop box allows users to remove unwanted portions of an image and resize it to a width/height aspect ratio of 1 : 1.25. The crop box can be shrunk and enlarged as well as repositioned to allow for the best display of the image.
