Version 7.6.00 Enhancements

New Code Tables for the Graffiti Module

The following code tables have been added to GRIP:

Initiating Factor – for graffiti classification

Graffiti Color – for classifying foreground and background colors of graffiti

Graffiti Location – for specifying the location of graffiti

Municipality – for specifying the location of graffiti

Police Zone – for specifying the location of graffiti

Neighborhood – for specifying the location of graffiti

Census Tract – for specifying the location of graffiti

New Graffiti Tracking Module.

GRIP has a specialized module for tracking all details related to graffiti.

The Graffiti Module has the ability to the following information:

- **Graffiti Details:** Stores a complete profile for graffiti, date reported, date documented, agency, gang/affiliation/crew, tagger id, etc.
- **Description:** Primary and secondary background and foreground colors, graffiti description.
- **Location:** Location type, location name, address, county, municipality, neighborhood, census tract, etc.
- **Comments:** Notes and comments.
- **Location:** Facility, division, section, area, police districts, jurisdiction, hangouts, headquarters, etc.
- **Images:** Stores an unlimited number of images for graffiti.
- **Attachments:** Associated documents that contain supporting details. Attachments can be any file, including PDF, DOC, XLS, etc.
- **Subjects:** Shows suspects related to the item.
- **Key Words:** Key word and key word type.
- **Contacts:** Date, time address, agency, agent, reason and comments for a contact.
